

The Royal Astronomical Society of Canada
and
**The University of Saskatchewan Physics
and Engineering Physics Department**

Invite you to an Open House at the Sleaford Astronomical Observatory

65 km east of Saskatoon on

Friday, October 23 and Saturday, October 24, 2009

See our moon, the moons of Jupiter, spectacular star clusters and the bright Milky Way free from light pollution through our telescopes!

Bring your car and join a convoy departing from the east end of the Field House parking lot at 7:00 pm

Dress Warmly (winter gear recommended)

For further information call: 249-1990
